Mr. David Stager
1414 Gregory Ct.,
Rohnert Park, CA 94928

Dear Mr. Stager,

The only unidentified fingerprints I recall are those in which you are interested. As I have always been. I no longer recall all I wrote about this or even where but I am clear that the print on the flyer to which you refer was identified by the FBI and it refused to disclose the identification to me in FOIA litigation ans got away with it.

The flyer was obtained by a Harbor Policeman named Austin.

And it was in the files when LHO was identified and then given to the FBI.

In my own work in New Orleans I did learn that Oswald did have others associated with him in his leafletting, besides the one he hired for handing them out at the ITM, Steele. I did not develop any names.

And Garrison had no interest in it. He never bother to learn whose print was on that flyer.

If you learn anything I'd be interested

It is not impossible that the name might mean something to me.

Good luck!

Garold Weisberg.
